Figure 14: Asia:
Urban Challenges: Type of Challenges

Climate change Mitigation

Climate change/disaster Resilience

Basic services, housing, slums

Urban planning, green & public spaces

Cleaner urban areas

Holding the increase in the global average temperature to well below 2 °C

Increasing the ability to adapt to the adverse impacts of climate change

Foster climate resilience and low greenhouse gas emissions development

Foster climate resilience and low greenhouse gas emissions development

Foster climate resilience and low greenhouse gas emissions development

Take action to address climate change by reducing their greenhouse gas emissions

Strengthen resilience in cities to reduce the risk and the impact of disasters

Provide basic services for all citizens

Promote safe, accessible and green public spaces

Promote measures that support cleaner cities;

Improve connectivity and support innovative and green initiatives

By 2020, increase nr of settlements adopting and implementing policies + plans towards, mitigation and adaptation to climate change + resilience to disasters

By 2030, reduce nr of deaths + nr of people affected and reduce eco losses caused by disasters, with a focus on protecting the poor + vulnerable

By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums and sustainable transport systems

By 2030, provide universal access to safe, inclusive and accessible, green and public spaces,

By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management

By 2020, Substantially increase the number of countries with national and local disaster risk reduction strategies

By 2030, Substantially reduce global disaster mortality and people affected

Reduce direct disaster economic loss and reduce disaster damage to critical infrastructure and disruption of basic services

By 2020, increase the number of countries with national and local disaster risk reduction strategies

By 2030, increase the availability of and access to multi-hazard early warning systems and disaster risk information and assessments to the people

Translate Global / National commitments and goals into local commitments and goals
